Always Good Times

RACE DEPARTMENT

Victories at the most prestigious skiing competitions have always been an integral part of Elan's story. Race skis are the bread and butter of Elan's race department, which comprises some of the top experts in the field. Since competitive skiing is quite different from recreational skiing, race skis also differ significantly from the conventional skis sold in shops. Race skis have to conform to the rules of the International Ski Federation (FIS), which determine the length and sidecut as well as the height of the ski including the plate under the ski boot for each discipline. Competitors can have their skis customised to suit their specific needs using a variety of constructions. Skis can thus differ in longitudinal and lateral stiffness and stiffness distribution (also known among skiers as bending and torsional stiffness) as well as geometry within the limits set by FIS rules. The appropriate materials are then selected to achieve the desired effect based on the parameters defined. Skis can only perform optimally in combination with a perfectly matching plate and ski boot.

GSX WORLD CUP Plate

CODE_ AABFDG19
